MARLESS: Regional Workshop on Planning Tool

MARLESS DESCRIPTION

MARLESS implements actions focused on the phenomenon of Marine Litter from different points of view and methods of intervention. Therefore, it puts into effect actions of monitoring, management, prevention, removal of the ML and proposes experimental actions aimed at treating of plastic waste.

MARLESS PROJECT PARTNERS

MARLESS: Regional Workshop on Planning Tool

The main goal of the workshop is to present and discuss the Cross boundary Marine litter management plan, as a non-legally binding and practical document with aim to share understanding among the partners (IT and HR) on how the EU and Barcelona Convention legal requirements should be implemented. This includes the necessity of a common understanding of technical needs, scientific knowledge, and the socio-economic impact of marine litter in the sub-region of the Adriatic Sea.

Organized by:
